

New and Stylish Creations In Ladies' Headwear

Miss Killean has just received a large shipment of LADIES' MILLINERY fresh from the leading fashion centers of the United States. This shipment includes all the newest and most fashionable shapes and trimmings which Dame Fashion has decreed to be worn this season by those who wish to be well dressed.

It is hard to quote prices, because the price of a hat depends largely upon the trimmings, but you may rest assured that Miss Killean's prices are reasonable. In fact, you can save money and be better dressed by purchasing at this store.

Dress Making Department

This department is in charge of a competent fitter, assisted by first-class dress-makers, who turn out the most stylish street costumes, walking skirts, and evening dresses that are made in Honolulu.

Any woman can be properly fitted. After all, good fitting is just as important as good material.

Hair Dressing and Manicuring

No woman is well dressed unless her coiffure has been properly attended to. The hairdresser is an artiste in her profession and has all the latest ideas in hairdressing.

Manicuring is an equally important part of a woman's toilet. Come to Miss Killean's when you want manicuring properly done.

RAYMOND VS. RICHARDS

Relief Camp's Closing
Argument.

BOTH SIDES ARE HEARD

Philanthropy as Opposed to Sanitary
Necessities in Honolulu
City.

The Board of Health and Theodore Richards differ as to the keeping open of Relief Camp No. 2. Mr. Richards asked the board which had condemned the camp, to allow the occupants to remain, and also, as to what sanitary requirements would be demanded for the camp's retention. The Health Board on Friday refused to allow the camp a longer lease of life. On Monday Theodore Richards wrote the Advertiser as follows:

Editor Advertiser: Your notice concerning the closing of Relief Camp "2" in Saturday morning's issue suggests some explanation. The owner of the premises on Vineyard street (not the undersigned) desires to continue the home for the seven hundred or more people there. A letter was written to the Board of Health requesting to know what the requirements might be in the way of sanitary improvements. There has been no official answer to that letter as yet, but we are informed by the Board's representatives that the place must close.

Following is the rather comical position of the Board: Although the owners have offered to meet every requirement—build the sewer, put in all necessary plumbing, dig any reasonable, etc., the Board only replies, "We can not give you the right to qualify; we simply declare the place closed."

"But what of the places in worse condition?"

"We will take care of them in time."

"Where are these seven hundred people going?"

"That is not our affair; if they go to worse conditions, we will follow them and root them out."

"How is the city to grow?"

"It mustn't grow until we get ready to handle it. We are short of excavator carts, but the main trouble is that the excavator service is too costly."

Ay—ah! Here's a dilemma. Rather hard for the Board of Health, it must be admitted, but still harder for some of the poorer classes of the City. It is as though a mother were to say to a child, "Your pants are outgrown; efface yourself from the earth till I get time to make you a pair of pants." The present owners of the land and buildings formerly occupied by Camp "2" will hold them (empty) till—the Board says six months—the sewers amble our way. In the meantime it is presumed that our neighbors have their own private sewers to the sea.

Thanking you for the space,
THEODORE RICHARDS.

President Raymond of the Board of Health said yesterday:

The statement of facts concerning the matter is as follows: The land is owned and controlled by J. B. Atherton and Theodore Richards, according to Mr. Richards' statement, the Board of Health buildings were on Friday last purchased by J. B. Atherton with the exception of three. The Board quite recently declared the place unfit for human habitation and passed a resolution closing the place. Executive Officer Pratt visited the premises and reported to me on Saturday in the following letter:

Dr. J. H. Raymond, President of the Board of Health.

Sir: Complying with your request for a statement of facts re the Theodore Richards matter, I have the honor to report as follows:

On December 26, 1900, a letter was received from Mr. Richards addressed to the Board of Health and was read at the meeting of the Board held the same day. In the afternoon, and by vote of the Board was referred to the Executive Officer for report.

Thursday, December 27, Mr. Richards called to see what action had been taken by the Board, and I told him that his letter had been referred to me by the Board for a report, and that I should like to visit the place with him. We arranged for a meeting at 10 a. m. on Saturday, December 29, and at that hour we went there and I examined the place thoroughly. I came back in the hack as far as the Capitol with him and told him after we got out that I would make my report to the Board at the next regular meeting, which would be held on January 2, 1901.

The receipt of his letter I considered had been acknowledged in person by what has just been stated. As the regular meeting was postponed from Wednesday to Friday, and the action was to come off before the meeting, I considered it was fair to him to let him know what my report would be. I therefore telephoned him that I would like to have him call at the office, and he came January 2, about 10 a. m. I explained to him that there would be no meeting before the meeting, and that I would tell him what I considered was necessary to be done in order to put the camp in a sanitary condition, and the probable cost of the same.

That connection with the sewer would have to be made, but before that could be done the plumbing would have to be entirely remodelled, that garbage retainers should be put in front of every room and collected by the men in charge of keeping the camp clean and put in larger containers so that these could be collected by the sanitary officer. That the drains would have to be put in in certain portions of the camp, gutters put on all buildings with pipes leading to the street to carry off rain water, and several other minor matters; that the expense of these improvements would be about from thirteen to fifteen hundred dollars, as near as I could roughly estimate, and that it would probably take a month to a month and a half to do this work outside of connecting with the sewer. He wished an assurance from me that this would be all the Board would require. I answered him that this was simply an outline of my report to the Board and I could not tell him what action would be taken by them on the report. We then drifted into the subject of sewer connections. Finally he said that he was very anxious to know before the meeting just what the action of the Board would be on my report, and wanted to know if a special meeting could not be called. I told him that if he wanted a special meeting called that he had better see you and he left saying he would do so. Respectfully submitted,
J. B. PRATT,
Executive Officer.

Mr. Richards called at my office on Sat-

urday last in connection with the continuation of the relief camp. I told him we heartily appreciated the interest he had taken in the matter of providing homes for all these people but that the Board had taken action in the matter and the evidence had showed the place was unfit for human habitation, and that according to Dr. Pratt's report it would be some two months before it could be put in good condition. Even after that it would be necessary to connect the premises with the sewer system. I told him the sewer contractors were doing all they could to complete and extend the system but that there were more urgent demands upon them to connect some thirty or forty places in Chinatown. I explained to Mr. Richards that I thought there were more urgent demands upon the Government to give its entire attention to these places on account of public health, than to the relief camp. I said there were a number of persons who owned property in old Chinatown, who since they had been burned out had been kept out of their incomes for about a year and could not rent their property on account of their inability to connect with the sewer. The owners should be considered before the relief camp owners.

I also stated in answer to his question as to the disposition of the tenants that if these people went from the camp to other places which were unfit for human habitation, they would have to leave them also. I cited the Winam case as an instance where the premises were closed and the people turned out in the interest of public health. I spoke of the expense of the odorless excavators only in the sense that we were endeavoring to get the part of the City known as Chinatown in a perfectly sanitary condition (being consistent with the lines laid down by the Board and in accord with the economical plan). These excavators are very expensive to run and when they are several hundred dollars per month to the Government. I said nothing to him about the growth of the City.

Saturday morning Mr. Richards walked into my office with a copy of this letter which he printed in the Advertiser, and handed it to me for my perusal. I returned it to him saying that it did not interest me in the least and that I would read it when it appeared in the paper, and would answer it. I am at a loss to know why he came to me with his letter.

I would like to reiterate that it is the purpose of the Board, which is composed of men of high standing, and whom I know to be honest in this work, to do what is best for the people and show no partiality. It is purely a business proposition, and we are working hard and earnestly to accomplish something, and we feel we should have the support of every citizen in the community, no matter what his standing may be. We will give every one a fair chance, irrespective of his financial, social, political or religious status.

Mr. Richards said there were many places in worse condition than the relief camp referred to; if such is the case, I told him it is his duty as a good citizen to point them out and we would willingly correct them.

It is indeed a commendable enterprise, I admit, but I can not see where the Board of Health is justified in extending privileges to the owners of this property even though it is a philanthropic measure at the expense of the many poor Chinese and property owners who by necessity have been in many cases almost forced into bankruptcy by this Government in an extraordinary emergency.

BEAT OUT OF AN INCREASE OF HIS PENSION.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48 I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension, for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by Benson, Smith & Co., Ltd., wholesale agents.
